

How to use the iSmile admin

A step-by-step guide for anyone on the team, even if you have never used it. The admin is where you see and manage everything: registrations, payments, lunch lists, students and their ID photos, workshops, sponsors, exhibition booths and the check-in at the door. You never need to open the database itself. The admin shows it to you as simple pages.

The one rule to remember

A person is **registered only after paying**. Filling in the form is not enough. The moment the payment company (Psoola) confirms the exact amount, the person appears in the admin with a ticket. If they do not pay, they never appear, and their form is deleted automatically.

Where	Address
The real admin	https://ismile.krd/admin/
The test admin (for practice)	https://test.ismile.krd/admin/ Has an orange "TEST SITE" bar. Nothing there is real, so practise freely.

The pictures in this guide come from the test admin, filled with example people. Every name, phone number and payment in them is made up.

Contents

1. Your account and your role
2. Signing in the first time (phone code)
3. Signing in every day
4. The Dashboard
5. Finding a person (Registrations)
6. One person's page
7. Lists: lunch, students, ID photos, workshops, sponsors
8. Booking a workshop by phone
9. Adding and changing workshops (Owner)
10. Registering someone who calls
11. Payments (Finance)
12. Check-in at the door
13. Sponsors & booths
14. Settings (Owner)
15. Users (Owner)
16. Excel and printing
17. Questions people ask
18. Golden rules

The coloured badges you will see everywhere

	Paid and registered (event ticket), or the workshop is paid.
	A free ticket or free workshop, given by the Owner.
	Only for workshops: booked but the money is not received yet.
	Cancelled. The ticket does not work at the door.
  	Small labels: green = done / good, gold = waiting, red = needs attention.

1 Your account and your role

Every person has their **own** account. Never share your password or your phone code. The Owner creates accounts on the Users page (chapter 15). Your **role** decides which pages you see:

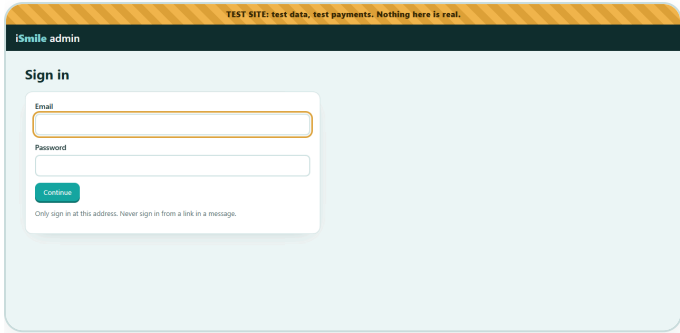

Role	For	Can use	Phone code
Owner	The organiser	Everything, including Settings, Users, free tickets, and correcting mistakes.	required
Registration	The office team	Dashboard, Registrations, Lists, Workshops, Sponsors, Check-in, Excel, student ID photos, registering callers.	optional
Finance	Money	Dashboard, Registrations (view), Lists, Payments, Sponsors, Excel.	required
Check-in	Door staff on summit days	Only the Check-in page.	optional
Content	Website texts	Only the website editor (Site content).	optional

If a menu item is missing for you, your role does not include it. Ask the Owner if you need it.

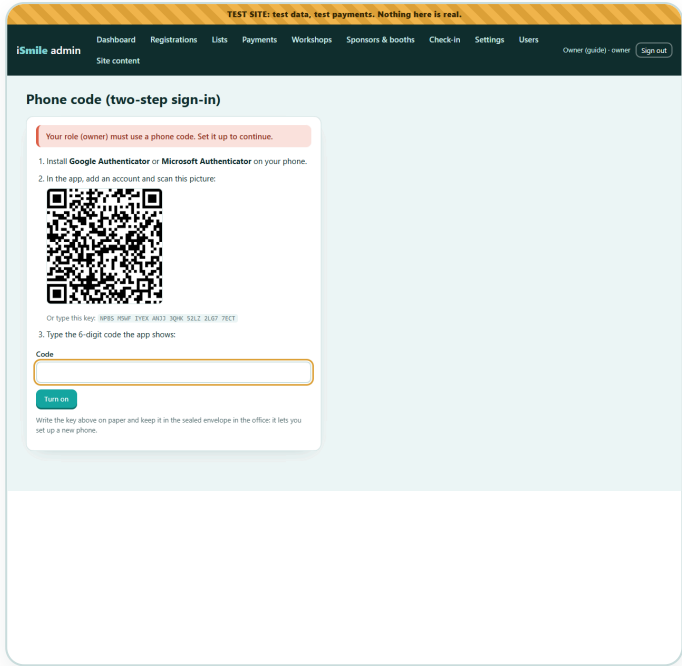

2 Signing in the first time (phone code)

You need: your email, the password the Owner gave you, and a phone with **Google Authenticator** or **Microsoft Authenticator** (free in the App Store / Play Store).

- 1 Open the admin address. Type your **email** and **password**, press **Sign in**.
- 2 Owner and Finance: the **Phone code** page opens. In the phone app press **+**, choose **Scan a QR code**, and scan the square picture.
- 3 The app now shows **iSmile** with a 6-digit number that changes every 30 seconds. Type that number and press **Turn on**.
- 4 Write the **key** under the picture on paper and give it to the Owner for the sealed envelope in the office. It lets you set up a new phone if yours is lost.

Step 1: the sign-in page.

Steps 2–3: scan the picture, type the 6-digit code. (This is a test account; your picture will be different.)

3 Signing in every day

After the password: the 6-digit code.

- 1 Email and password, **Sign in**.
- 2 Open the phone app, type the **current** 6-digit number, **Sign in**. A code works only once; if it is refused, wait for the next one.
- 3 When you finish, press **Sign out** (top right), especially on a shared computer.

Signed out by itself?	After 30 minutes without using it, or 12 hours in total. Just sign in again. This protects people's data.
5 wrong tries	The account is locked for 15 minutes. Wait, then try again.
Lost your phone	Tell the Owner. They press Reset phone code on the Users page, and you set it up again.
Forgot password	The Owner sets a new one on the Users page.

4 The Dashboard

The first page after signing in. It answers "how are we doing?" at a glance.

TEST SITE: test data, test payments. Nothing here is real.

UNIVERSITY OF SULAIMANI – STUDENT ID

Sara Ahmed Karim – 2026

Workshops (booked by phone)

WORKSHOP	PRICE	PAID?	BOOKED BY
No workshops.			

A registered student: details, ticket, ID photo, workshops, payment, emails.

Details	Name, phone, email, city, ticket type, lunch days, and Paid : the amount, how (FIB, Visa...) and when.
Ticket	The ticket number (T26-...), and whether they already arrived. Resend ticket emails it again.

Student	For students: university, ambassador code, and the ID photo they sent with the form, shown large. The photo is stored in the database . Click it to see it full size. There is no approval step: a student who uploads the ID and pays is registered, and the ticket email goes out when the payment is confirmed.
Workshops	Their workshop bookings, and a form to book one (chapter 8).
Payments	Their payment(s) as Psoola confirmed them.
Emails	Every email sent to them. Send again re-sends one.
Notes	Anything the office wants to remember. Only staff see it.
Cancel	Cancels the registration. The ticket stops working at the door and their workshop seats become free. No money is returned . Write the reason.
History	Who changed what and when. It cannot be edited.

Each workshop: price, seats, booked, paid, not paid, money received, seats left.

When someone calls to book

- 1 In **Book a caller**, type their **name** or **phone**, press [Find](#). Check the [✓ PAID](#) next to their name: they are registered. *Nobody found?* They have not paid the event ticket. Register them first (chapter 10).
- 2 Choose the **workshop**. Its price is used automatically. Only the Owner sees a price box and can agree a different price.
- 3 Choose **Paid?**: **✗ Not paid yet** if they will pay later (e.g. at the door), or **✓ Paid now** if you received the money.
- 4 If **Paid now**: type the **amount received**. It must be **exactly** the price, or it is refused. Choose **how**: cash, transfer or Psoola.
- 5 Press [Book the workshop](#). The seats left on the website go down by one at once.

Book a caller

Type the caller's name, phone or ISM26-... reference. Only **registered** people (they paid the event ticket) can take a workshop seat. Not registered yet? [Register them by phone](#): they get a "Pay now" link and appear here once they have paid.

Book the workshop

Booking Chnar on the Implant workshop, paid in cash, the exact 50,000 IQD.

Workshops

Chnar Aso Mustafa is booked on Implant surgery hands-on. Paid: 50,000 IQD.

Book a caller

Type the caller's name, phone or ISM26-... reference. Only **registered** people (they paid the event ticket) can take a workshop seat. Not registered yet? [Register them by phone](#): they get a "Pay now" link and appear here once they have paid.

The green message confirms the booking and the payment.

Mark a workshop paid later

Press **People** next to the workshop. People who have not paid are at the top. Type the amount, choose how, press **✓ Mark paid**.

Implant surgery hands-on: 4 people

Not paid first. Workshop money is not refunded.

NAME	WORKSHOP PAID?	PHONE	EVENT TICKET	PRICE			
Karwan Jamal Rashid	X NOT PAID	+9647502021074	✓ PAID	50,000 IQD	50,000	how?	✓ Mark paid
					Remove		
Chnar Aso Mustafa	✓ PAID	+9647502151555	✓ PAID	50,000 IQD	Undo (mistake)		
	cash, 27 Sep, 21:33				Remove		
Shilan Omer Aziz	✓ PAID	+9647502011037	✓ PAID	50,000 IQD	Undo (mistake)		
	cash, 27 Sep, 21:25				Remove		
أحمد محمد حسن	✓ PAID	+9647502071259	✓ PAID	50,000 IQD	Undo (mistake)		
	psoola, 27 Sep, 21:26				Remove		

The people in one workshop, with their workshop payment and their event ticket.

No refunds. Once a workshop is paid, staff cannot undo it, remove it, or cancel that person. Only the Owner can, to correct a mistake (for example, money recorded on the wrong person). **Sign-in sheet** downloads the list for the trainer.

9 Adding and changing workshops (Owner)

We do not know yet how many workshops there will be, so the Owner adds them here. Everything is **saved in the database**, and the website's workshop page changes **at once**. Open **Workshops** and scroll down to ⚙ **Manage the workshops**.

Add a new workshop

- 1 Press **+ Add a new workshop**.
- 2 Write the **name** in English, Arabic and Kurdish. Trainer and company are optional. Leave the names empty only if the title is not announced yet (the website then shows "Coming soon").
- 3 Type the **price per seat** (IQD; 0 = not set yet), the number of **seats** (this is the limit), and choose the **picture** for the website card.
- 4 Press **Add the workshop**. It is in the database, on the website, and ready for booking.

⚙ Manage the workshops (Owner)

Add a new workshop, change its name, price or seats, or hide it. The website's workshop cards change at once. The seats are the limit: nobody can be booked past it, and the seats can never be fewer than the people already booked.

WORKSHOP	ON THE WEBSITE	SEATS (LIMIT)	BOOKED	
Implant surgery hands-on implant · 50,000 IQD	Shown	- 30 +	4 · 26 left	Edit Hide
Digital smile design dsd · 40,000 IQD	Shown	- 24 +	2 · 22 left	Edit Hide
Modern endodontics endo · 35,000 IQD	Shown	- 20 +	0 · 20 left	Edit Hide Delete
Intraoral scanning scan · 35,000 IQD	Shown	- 24 +	0 · 24 left	Edit Hide Delete

+ Add a new workshop

Name (English)	Name (Arabic)	Name (Kurdish)
Trainer (English, optional)	Trainer (Arabic)	Trainer (Kurdish)
Company (English, optional)	Company (Arabic)	Company (Kurdish)
Price per seat (IQD; 0 = not set yet)	Seats (the limit)	Picture on the website
0	20	tools

Leave the names empty only if the title is not announced yet: the website then shows "Coming soon".

Add the workshop

The workshops, with their seats and bookings, and the form to add a new one.

One seat fewer / one seat more. The seats are the **limit**: nobody can be booked past it. They can never go **below the people already booked**.

Edit	Change the name, trainer, company, price, seats or picture. A new price counts for new bookings; people already booked keep the price agreed with them.
Hide	Takes it off the website and stops new bookings. The people already booked stay. Show again puts it back.
Delete	Only for a workshop nobody was ever booked on (the button appears only then). Otherwise use Hide, so the history stays.

Workshops are managed **only** here. The "Site content" editor still has the wording of the workshops page (for example the booking phone number), but not the workshops themselves.

10 Registering someone who calls

For someone who wants to register by phone. On the **Registrations** page press **+ Register a caller (phone)**.

The phone registration form.

- 1 Type their names, phone, **email** (the payment link and the ticket go there), city.
- 2 Choose the ticket. For a student, write the university (you have seen their ID).
- 3 Choose the language of their emails, and the lunch days.
- 4 Press **Send the "Pay now" link**.

They get an email with a **Pay now** button. They are **registered only after paying**: then they appear in Registrations with a ticket. If they do not pay within the days set in Settings (3 days), the details are deleted automatically.

Owner only: a free ticket

For a guest, a speaker's assistant, etc. Fill in the same form, write the **reason** in the Owner box, and press **Register with a free ticket**. They are registered at once with a **★ FREE** ticket, emailed to them. The reason and your name are recorded.

11 Payments (Finance)

Every payment attempt made on Psoola. The page Finance checks every day.

TEST SITE: test data, test payments. Nothing here is real.

The Payments page. A red row needs Finance.

Status	Meaning	What to do
Paid	Confirmed by Psoola. The person is registered.	Nothing.
Waiting	The person is on the payment page right now. Not registered.	Nothing. Check now asks Psoola at once.
Failed / Expired	Card declined or page closed. Not registered.	Nothing. They can try again.
Mismatch	Psoola confirmed a different amount . Nobody was registered.	Contact the person and Psoola.
Duplicate	The same person paid twice (e.g. two tabs). One ticket only.	Contact the person (no refunds), then close it.
Reviewed (kept)	Finance looked at it and closed it.	Nothing.

Closing a red row

- 1 Call or email the person; agree what happens (iSmile does not refund; for example, the extra payment counts for a workshop).
- 2 Write what was agreed in the box on the red row and press **Reviewed, close**. It leaves the red box on the Dashboard.

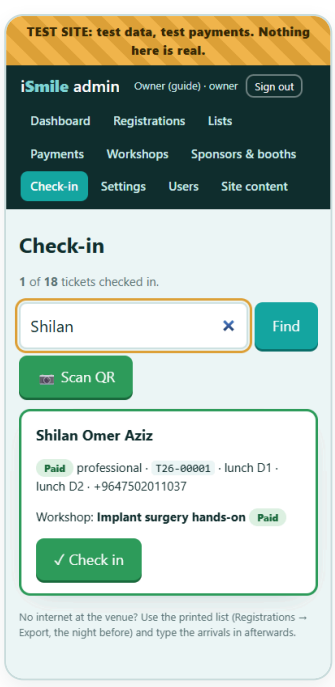

Daily totals	Money confirmed per day. Compare with Psoola's daily report; if a day is different, look for a red row.
Messages from the payment company	Every "payment changed" message Psoola sent. First place to look when someone says "I paid but got nothing".

12 Check-in at the door

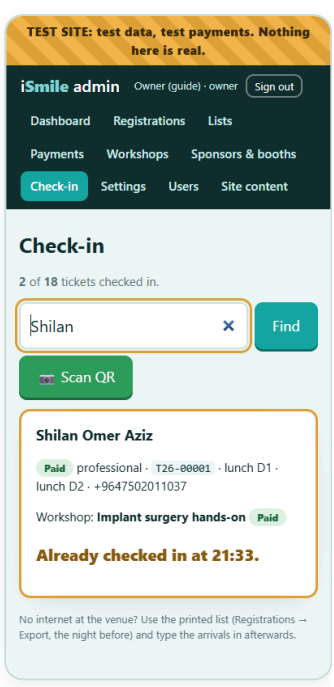

For summit days. Works on a phone. Door staff have the **Check-in** role and see only this page.

- 1 Press **Scan QR** and point the phone at the QR code on the person's ticket (phone screen or paper). Or type the ticket number T26-... or the name, and press **Find**.
- 2 Check the name on the screen against the person. The card also shows their lunch days and workshops.
- 3 Press **Check in**. Done: they may enter.

"Already checked in at 09:12"	This ticket was already used. Someone may be using a copy. Send them to the registration desk.
Red "not genuine" / "old ticket" / "no valid ticket"	A fake QR, an old ticket after a name change, or a cancelled ticket. Do not let them in; send them to the registration desk.
No internet	The evening before, export the Registered list to Excel and print it. Tick names on paper, enter them afterwards.

Found: press Check in.

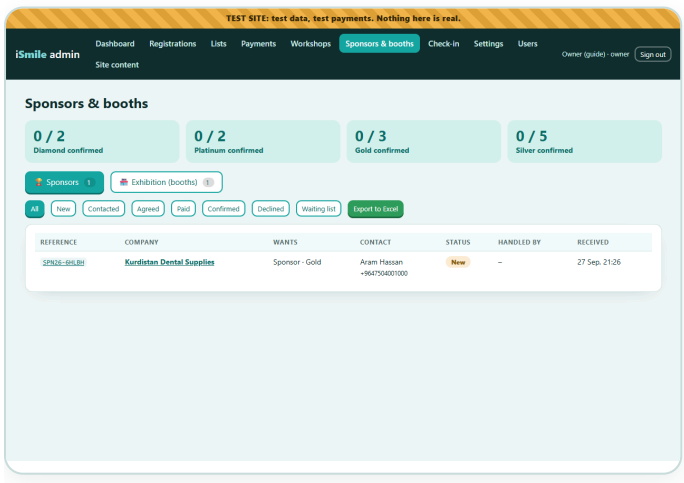

Scanned again: already checked in.

13 Sponsors & booths

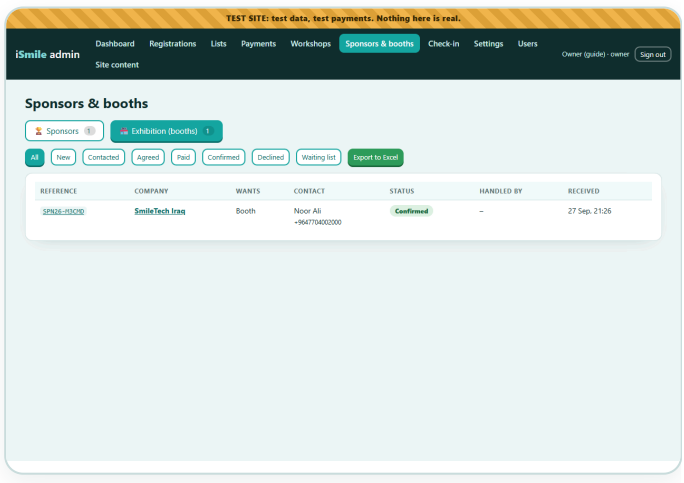

Requests from the sponsor form on the website. A person handles each one; nothing is sold automatically.

Sponsors and **exhibition booths** are different, so they have separate tabs at the top: **Sponsors** and

Exhibition (booths).

Sponsors: spots confirmed per tier at the top, requests below.

Exhibition (booths): the booth requests on their own.

- 1 Open a request (click the company). Assign it to yourself and add notes about calls.
- 2 Move it along: **New** → **Contacted** → **Agreed** → **Paid** → **Confirmed**. Or **Declined** / **Waiting list**.
- 3 A request can be **Confirmed** only after it is **Paid**, and a tier cannot take more sponsors than its spots. Only the Owner can override either.

For a clean list to send or print, use **Lists** → **Sponsors** or **Lists** → **Exhibition (booths)**.

Registration

☒ **Registration is open** (untick in an emergency: payments stop, nothing else changes)

Prices now (Site content → Ticket prices): professional **150,000 IQD**, student **75,000 IQD**, lunch day 1 **15,000 IQD**, day 2 **15,000 IQD**. A price of 0 cannot be paid.

Message while closed (English)

(Arabic)

(Kurdish)

Lunch limits

The event itself has **no seat limit**: everyone who pays can join. Only lunch is limited (by the caterer), and each workshop has its own seats on the Workshops page.

Lunch, day 1 (from the caterer; 0 = no limit)

Lunch, day 2

300

300

Settings: registration open/closed, limits, emails.

Registration is open	The main switch. Untick it in an emergency: the form closes and no payments can start . Everything else keeps working.
Message while closed	What visitors read while closed (e.g. "Registration opens on 25 October"), in 3 languages.
Lunch limits	From the caterer: a lunch day disappears from the form when full (0 = no limit). The event has no seat limit ; workshop seats are set on the Workshops page.
Test mode	While ticked, every email goes to the test address , not to the people. Untick it on launch day.
Sponsor requests go to	The email that hears about new sponsor requests.
Phone "Pay now" links work for	Days a phone caller has to pay (then their details are deleted).
Ambassador codes	Add an ambassador's code; see how many students used each one.
Audit log	Everything anyone did, newest first.

Prices are not here: they are in **Site content** → **Ticket prices**. Every price change is logged and emailed to the Owner.

Users

NAME	EMAIL	ROLE	PHONE CODE	LAST SIGN-IN	ACTIONS
Owner (guide)	guide@ismile.krd	owner Set	Confirmed	27 Sep, 21:33	New password (12+) Set password Reset phone code Disable
Redyar	redyar8r@gmail.com	owner Set	Confirmed	27 Sep, 20:56	New password (12+) Set password Reset phone code Disable
Test Owner	owner@example.com	owner Set	Confirmed	27 Sep, 20:35	New password (12+) Set password Reset phone code Disable
Shilan (office)	shilan@ismile.krd				

Everyone who can sign in, and their role.

Add a person	Email, name, role and a first password (12+ characters). Give it to them in person or by phone, never by chat.
Change role	Choose the new role and save. It takes effect at once.
New password	Sets a password and signs them out everywhere .
Reset phone code	For a lost phone. They set it up again at their next sign-in.
Disable	Someone leaves the team: disable, never delete, so their history stays. Can be enabled again.

16 Excel and printing

- **Registrations** → **Export to Excel**: the list you see, with your filters.
- **Lists** → **Export to Excel / Print**: lunch lists for the caterer, students, everyone.
- **Workshops** → **Sign-in sheet**: one workshop's people, with a signature column.
- **Payments** → **Export to Excel** and **Sponsors** → **Export to Excel** (Finance / Owner).

Exported files contain people's personal data (names, phones, emails). Do not post them in group chats, delete them when you no longer need them, and never send them outside the team. Every export is recorded with your name.

17 Questions people ask

"I paid but I did not get a ticket."

Search their name, phone or email in **Registrations**. **Found with ✓ PAID?** Check the email address on their page; fix it if wrong and press Resend ticket (also ask them to check spam). **Not found?** Their payment was not

confirmed, so they are not registered. Look at **Payments** (a waiting or red row with their name) and **Messages from the payment company**; if Psoola took the money, Finance contacts Psoola. Never promise a ticket before the admin shows ✓ PAID.

"I filled in the form but I am not in the list."

Correct: the form alone is not a registration. They must pay. They can fill in the form again on the website, or you register them by phone (chapter 10) and they pay with the link.

"I paid twice."

They have one ticket. Finance sees a red **Duplicate** row on Payments, contacts them (iSmile does not refund) and closes it with a note.

"My name is spelled wrong on the ticket."

Open their page, Edit, correct the name, Save. A new ticket is emailed automatically; the old one stops working.

"Can I pay the event ticket in cash at the office?"

No: event tickets are paid only through Psoola (Visa, MasterCard, FIB, FastPay), so every payment is confirmed. For a guest, the Owner can give a free ticket. Workshops can be paid in cash.

"Is this student really a student?"

Open their page and look at the ID photo they sent. There is no approval step; if something is clearly wrong, tell the Owner.

"I want to cancel and get my money back."

Tickets and workshops are non-refundable. You may cancel the registration (the ticket stops working) but no money is returned.

"Where are the student ID photos?"

Inside the database. See one on the student's page, or all of them in **Lists** → **Student IDs**. They are deleted automatically 90 days after the summit.

"A new workshop was announced / a workshop needs more seats."

The Owner adds it, or presses + for more seats, on **Workshops** → ⚙ **Manage the workshops**. The website changes at once.

"Can the event be full?"

No. The event has no seat limit: everyone who pays can join. Only lunch and each workshop have limits.

Something looks wrong or broken.

Do not try to fix it by guessing. Take a screenshot and send it to the Owner. Everything is logged, so nothing is lost.

Always

- Use your own account; sign out on shared computers.
- Check the  badge before promising anything.
- Type workshop money exactly as received.
- Write a reason when you cancel or give something free.
- Keep the Dashboard's red box empty.

Never

- Share your password or phone code.
- Send exported lists outside the team.
- Promise a refund. iSmile does not refund.
- Send someone's personal ticket link to another person.
- Practise on the real admin: use the test admin.
